## Richmond Events' Top Financial IT Executives of 2002-2003 Selected

The second annual Top Financial Information Technology Executives for 2002-2003 have been selected in a process sponsored by Richmond Events' The CIO Forum Financial Services 2003.

Late last year, hundreds of executives nominated their peers for this prestigious award. The final winners were selected by The CIO Forum's Advisory Board based on the candidate's creativity, commitment to the industry and results.

"The depth of expertise, experience and excellence represented among this year's winners is unmatched," said Project Director David Shaw.

The Top Financial IT Executives will be invited as guests to The CIO Forum Financial Services 2003, May 4-7, held onboard P&O's newest ocean liner Adonia, where they will receive an award for their distinguished accomplishments. These individuals and their incredible achievements also will be profiled on The CIO Forum Financial Services website ([www.cioforum.com](http://www.cioforum.com)) and in the Forum's conference program.

The Top Financial Information Technology Executives for 2002-2003, in alphabetical order, are:

#### About The CIO Forum Financial Services 2003

The CIO Forum Financial Services is the leading strategic IT forum for the U.S. financial services industry.

The unique event offers one-on-one, pre-scheduled meetings with vendors who provide services to this market, networking in a relaxed environment with no distractions, and a conference program consisting of keynotes, workshops and think tanks tailored specifically to top-level IT in the financial services market.

Specific topics include in-depth discussions of mergers and acquisitions, recruiting and hiring, integrating legacy applications, customer relationship management, account aggregation, and more.
